

2018 UMA Motorcoach EXPO

UMA Green Highway Award Nomination Form

The Green Highway Award, which is sponsored by Motor Coach Industries, was introduced at UMA Motorcoach Expo in 2008. The award was created to promote the motorcoach and its application as a viable solution to the reduction of carbon emissions and to encourage industry leadership with a positive impact on our environment. The award will be presented to the motorcoach operator who demonstrates the greatest commitment to “green stewardship” in the areas of internal corporate initiative, external corporate stewardship or community and industry-wide green leadership.

The award will be based on three aspects of a company’s operation – Administrative, Maintenance and Equipment, and Facility. If we have failed to include a specific item in which your company has done to move towards a “green” environment, please let us know.

Please complete the nominations form below to be considered for the ninth annual Green Highway Award. **Nominations must be received by Nov. 13th**. Please fax your nominations to 703.838.2950 or email Carrington Blake at cblake@uma.org.

Company Name: _____

Company Executive: _____

Address: _____

City / State / Zip Code: _____

Phone: _____

Fax: _____

Email Address: _____
